The '54 BUICK's got it— The Big Change you've been hoping for!

The instant you see these 1954 Buicks, you'll know that something sensational has happened in automobile styling.

Here is vastly more than the usual model changeover. Here is vasing more than could be done just by warming over what Buick had before. Here is something accomplished by going far beyond artful face-lifting.

Here is that rarity of rarities—a completely new line of automobiles.

But Buick didn't stop with the bolder, fresher, swifter-lined beauty you see in raised and lengthened fender sweep—in the luge and back-swept expanse of windshield—in the lowered roofline—in the host of extra glamor features of exterior modernity.

They upped all horsepowers to the highest in Buick history.

They engineered a new V8 for the low-priced SPECIAL, so that now the entire Buick line has Buick's famous V8 engine—and in the process came up with new Power-Head Pistons that hoost gasoline milesge in every engine.

They brought to market a sparkling newcomer with a famous name, the Buick CENTURY—a car with phenomenal horsepower for its weight and price—a car with more pure thrill per dollar than any Buick ever built.

And they did all this without change of the price structure which, for years, has made Buick the most popular car at its price in the world.

We invite you to come in and inspect these great beauties, these great performers, these great buys. Then you'll see why previewers are already saying, "Buick's the beautiful buy!"

The scenes the Eastern Ontarios Justine Hockey League in which the Vice played due to no OHA recoupling in this district, has folded finite; than a pre-payday walled with the result the highly touted Vice are emjoying an enforced idlentees until the OHA playdowns are due.

Writes Mr. Redden: "Pembroke's failure to ice a team or group competition and the weak aggregations that rep-mented Receiville and Smiths Palls brought chaos to this newly formed organization. True, the Chicago management came through with a sub-y if the figure could be classed as such, but it in no wise allied the expenditure forced upon the Belleville management maintain the four "imports" allowed by the OHA. In fact amount would not any more than pay the sessonal expenses

In any event Manager Bill Cook et al, look it on the fi-mancial chin for several years, and the string finally ran set. The spensership, plus the Chicago Black Hawker bless-hag was here for the asking, but no rash "sugar-daddy" ap-peared on the horizon.

So it would seem that the banner of Eastern Ontario junior bockey rests on the shoulders of the Vice. And they had tree be good for it is quite likely they will run garack ash in the Big Six group in their first step down the playdown it. And those Weston Dukes are mighly tough to beat. None was it better than Belleville.

It will be the first time in some years that the Wice en-ter the OHA Junier "B" playdowns. For you see, Michael, and the records will show it, there was always a peaky bunch of kids from Belleville, Black Hawks or no Black Hawks, that comistently robbed the Vies of the privilege, by the mere precess of elimination.

Is Your WILL **Up to Date?**

Many people review their Will at the beginning of each year. Your executor may have moved away or become ill or become unable to give sufficient time and attention to administer your estate. In view of the considerable changes in dollar values your Estate has probably changed

You may have given too many legacies, or too large in amount, under your Will and have deprived your wife and children of sufficient to previde for their care and keep. You may have to adjust some of the shares going to beneficiaries. Birth, marriages and deaths in your family may have made your estate plans obsolete. Increased succession duties and income taxes may affect the estate plans made by you for your family.

Your Will is one of the most important documents you will ever be called upon to sign. If you have a Will, we suggest that you review it now -and If not, make your Will now and appoint Victoria and Grey Trust Company as Executor.

It costs no more to have group judgment and financial responsibility.

CHIPS OFF THE SPORTS BLOCK By GEO. H. CARVER, Sports Editor

Why is it that when the Kingston Goodyears are off color practically every feam in the learne takes a good-size bell at them, they sufficenty get an assist from the schedule, grab a week's reat and then pick on our side to release the pent-up fury caused, by four or more setbacks

It happened again in Kingston last night when the Good-ers, playing their most brilliant bockey of the season, handed Memos a 10-1 plastering that kept the Limestone laddy-

A sound defence, a scintillating performance by Ken Johnson in the neis, clean positional hockey, was the story of the Kingston victory. There is not a team in the league who would have beaten the Carr-Harris crew on their performance last night. They were victory-starved and came up with an exhibition that compared with those that swept them through to the championship last season.

Don Murray, George MacGregor, the Goodyears' snlping aces were flying all night, while the Goodies' rear guardamen put up a solid defence that thwarted nearly every attempt of the Memos to score. And when the Mem of Molra did get through, and that was pienty, Marse Johnson in the citadel was practically invincible.

And while the Mercos were going down battl And while the Memos were going down battling the up-surging Feice came through with a decipire 6-1 victory over the group-leading Onhawa Truckmen up in Perdueville. The week's play thus far has left no change in the standing, with the Petes still helding down second place and Orilla and Kingsion tied for third spot.

The Pentiacs are here touight to battle with the Memos, and the latter, after the detest tast night, will be in ne am-lable mood. They'll go all out to cop this one, and ne fooling. If the Poutles win the victory will shoot them into second place, one point in front of the Petea.

The man who should be pictured in 3 dimensions

This man - just one of many life insurance policyholders - is not always seen in a way that reveals his true importance.

Usually he is regarded simply as a man who is providing financial security for his family. But if you could see him in true perspective against the background of his community - and even the whole country - you'd realize that he also benefits his fellow-citizens in many important ways.

Take such useful public works as new roads, bridges, schools and hospitals, for instance. He often helps to create them - because a large part of his premium payments is invested for him by his life insurance company to help finance their construction.

Or note the progress that science is making in the war sgainst disease. Here, too, this man plays a part. For life insurance companies contribute funds to vital medical research projects that promote better health and longer life for all.

Moreover, by safeguarding his family, he performs another service for his fellow-citizens. For by doing so he makes sure that his family will not be a financial burden

aSo, if you are a life insurance policyholder, be glad that in all these ways you're helping to make Canada a better land to live in !

Memos Come From Behind To Defeat Petes 6-5 In Senior B Thriller

It took the Memos a full period and four Peterberough alg to find their bockey sen-legs list night, but when they d mnoover them they struck swiftly and effectively to pull a well-descried with set of what sensed to be certain de-duct. Down 6-1 yeals into the second set, and with Raily deractic replacing Dom Barchey in the sets, the Mesons trip-pel in free strictific goin's eithest a reform to lead the peaky Potes 6-4 early in the third period. They fired home three spins in a little over firm animate in the second chekka when they had by far the better of the play, and then some control of the control of the play, and then some control at these control of the play, and then some

steed at hem.

It was one of the "thrillingert" games of the season es-cellify in the last period when Flaying Cosum the lite of the last period when Flaying Cosum the lite of the last period when the last in the last period, the clarify, At one time the Peter she day force, hild two Memors at in the hoosegow along with Peter Jones, the last period deriverse game, and although the Peter whitted he margin to a single counter, the Doran crew hald the fort all time ran out.

At that they nearly scored the sevenik geal when Ted DeGray broke into the clear with no Petes geally around. Redmond butlooted after the winger but Ted get his abolt away and as the smallest crowd of the season held its breath the puck dinged off the starbeard gealpost.

All the Memor turned in fine efforts after the first period is history, with Vern Goyer and Jake Wade standing out on defence. "Red" Down also came up with a fine performer as did Rolly Sarrault after he relieved Don Barclay in the word period. Toolde Greenlaw, Pryla, Gus Leonard, Hill d Donley looked the best for the Bosez.

NTON - PODIT ANNE TONIGHTS

Rari Anderson's Point Anne entry in the Trent Valley Hockey League will be granting for its fourth straight view forcy in the southern division of the loop additionated Areas tealpht. They clash with the Carr's Admittal of Trentsio, in the first meeting of the issues and the Orr Positions feel completes they can extend their subcasion sixting to four.

They have neited up imposing scores in their first three starts, defeating Wellingslow Iron Dukes 11-4, and the Trenton EACH Fyrers by 15-8 and 11-4 counts. In all they have fired bones 88 puchs or an average of over 12 a gamer - They have a red-bingsand team with Sammy (The Man) Mulholand, Pat Gilmony, Billy Strahm and Gerga Jecklin heading the point-

The Travies, team have split their first two starts, bow-ing to Wellington S-3 and whipping the Bata team by a S-1 second. A face familiar to Relieville heckey fame will be around isnight in the person of Schmidt, who formerly played with the Belleville Senior "B" clubs.

BIII Spation's Believille Crewtords will swing into action on Thursday night in the Bay of Quinte Senior Basketball Leader with the s-RL. Quanties as their presets. The Crewtorical was the third two outlags and have keep pass with the Trustion where the contract of the Crewtoria and Property and the schedule between Crewtoria and Pryce on Assuary Twa post-posed due to the BCL gramashum not being swillable. Craw-frond have a strong team, according to proprist, and should be a good account of themselves down through the schedule. They play the Pétots team to the latter over heat Tuesday night.

Maurice "Rocket" 'Richard, stormy petrel of the Nation Heckery League, whose latest headlines explosion came with heartificated, in a bylined sporte column, Clarence Campbe boss man of the loop, will be with the colorful Habitan when they play as intra-chib game in Memorial Aresă. 'Rizurday, Jamany 23.

Whatever sports writers of the National Lesgue cities tillak of the Richard lockfeet, it made no difference to the risunds Balbitand fins of the flery winger. Saturday algid when the Canadiens awanped the Black Hawks 13-3, Proxy Campbell aware the game to was proteid with loos and cheers every time he made a move. The Rocket, on the other hand, couldn't wiggle a boolines but what he received a roar of ornition.

According to a story from Nature 2, "Secon-Boom" Good-friest made no beans threat this defense of the Rocket. That the story of the story of the story of the Rocket and the flows and the most proper to the story of the story flows and to moon! The right of the story presents in the Ranger games. The Rocket is perfectly fright. Wall stall next west when I write my olume. Boy, will I tell Jain act." Gentifree, it appears, also writes a specie column in a French language assumpance.

in a French language newspaper.

But there is humor in overpiking. One of the framines incident to naive from the Richard-Campbell episode occurred on the name night. Johnny McGernack walked over the the Sacket in the Canadient dressing room and without batting an syriash remarked: "When do we go on birtlet"

Now that the explosion of the original A-bomb of profes-nal bockey has somewhat subsided, followers of the game are ordering the big question. "What will Presy Campbell do out it!" The loop boss has been placed on the spot and it il be interesting to note what his reply will be.

No player is bigger than the league he plays in, and col-ul and effective as he may be, Richard should get the same atment as would be handed out to one of the leaver lights

treatment to write the long.

If, as Richard hints, "he can kick me out of the longue, and I'll ake other Canadiens with me," materialize, it should be remembered that as colorial and brilliant as the brooding Habitant is, the Attacland Hockey Legage numbered long before the Canadiens' star pulled on his first pair of professional akades.

George Foster's dream has become a realization. And he is the last man in the world to take all the credit. It was huanly impossible for one man to achieve what has been denerer the space of a few years, and the past president is the rat to admit it.

"Let' tom a coin for it, Gus," suggested Rockne

"Okay, Rock," said Dorais. Rockne wen the flip of the cein. And thus came a grid-iren genius to Notre Dame,

The story is also told of the two who were "poverty-strick-en" in their undergraduate days, and worked their way through college as much by their wits as any other method. They were quickly established as the plumbing tirm of Rockine and Dorsia and their favorite targets were the "rich kids" in a soak-the-rich program of their own.

Deriag would knock on a dermitory door. "Hello, son," was his geeting, "have you paid the radiator rent yet? My partner and I have the radiator concession in this building, No? Okay, Rock, get to work."

Rockne would walk in with a big stillson wrench and begin to disconnect the radiator. It was a profitable busi-sess until the school authorities got wind of it and took away their "licence."

The pair was so poor they lived in a cellar room. But they soon figured out a way to make that pay. They sawed through the stein grill and put it on hinger. Subtents who were out lag after curriew knocked on the Rockne-Doria window and with admitted—at a price. A lot of the student departed the same way, so the irrepressible pair had them-parting, going and coming.

Blue Cross PARTICIPAN

IN ONTARIO

Never before have the hospitals in your commu such increased costs as they are to-day. To meet these higher costs and provide you with maximum protection against hospital expense, Blue Cross rates MUST increase. Here are a few facts to help you place a new value on your Blue Cross certificate:

HOSPITALS ARE PAYING MORE FOR EVERYTHING

The sains higher costs you are experiencing in your home have to be set by your hospital but on a such larger sode. Hospitals, like everyone else, must buy in the open market of prevailing prices and this secons that the costs for everything—explainment, supplies, and the WAGS and SALARSE of all those working in hospitals—have increased.

The average cost of care for Blue Cross patients is new 150% higher than in 1941 when the Pien began—15% higher than in 1951.

MORE PEOPLE GO TO HOSPITAL

Besides paying more for everything, hospitals are providing better treatment for more people than providing better treatment for more people man ever before. This is because modern, scientific treatment requires greater use all hospital facilities. People today are institute on the best possible care when they are sick and look to hospitals for it.

care descanded to-day adds to your hospital's costs for it means more staff, more equipment, more food, more drugs, more laundry . . . more

in 1941, 10 out of every 100 Blue Cross par-Helpants required hospital care—to-day this number is 17 out of every 100. This is on

BLUE CROSS PAYS THE "GOING" RATES

Your Blue Cross certificate is use Blue Cross pays "to-day's" rate for Standard Ward or Semi-Private accomm erticipating haspitals. You are not limited to a set daily cash amount which so often leaves sizable balances for you to pay.

THE ACCEPTED PLAN IN ONTARIO

Since 1941 when this Association launched the Blue Cross plan as a non-profit public service, over onethird of the people of Ontario have accepted it as the best hespital-care protection mensy can buy. Blue Cross will continue to help you "prepay" the maximum amount of unexpected hospital care at the lowest possible cost in keeping with sound,

SEE YOUR GROUP LEADER

Information regarding new Blue Cross rates effective on and after April 1, 1954 has been forwarded to all Blue Cross Group Leaders. Explanatory literature for subscribers will be forwarded about

reference or suscinces will be forwarded about Fébruary 15th.

Former stopp subscribers now paying directly to the Association will be notified when their next payment becomes due. THERE IS NO CHANGE IN RATES FOR BLUE CROSS

SURGICAL-OBSTETRICAL-MEDICAL BENEFITS.

LOW ADMINISTRATION COSTS

The cost of operating Blue Cross is low and plays as part in this adjustment of rates. Less than 7¢ of your subscription dollar covers all costs for staff, office space, supplies, light, heat, and other business expenses.

Boxing then was outside the pale of the law. Participant and speciators risked arrest and prosecution. Details of the arengement for the match were guarded so carefully that only three trusted sports writers were admitted. An enterprisin fourth writer gained admission by posing as a carpenter.

McAuliffe won by X.O. in the 28th round. Soon after the natch, it was learned that the aberiff was in search of the participants. The lightweight champion and his friends were builed into a sleigh and driven over deserted, snow-covered country roads to a nearby town, Lowell. McAuliffe presented such a battered appearance that a scandalized hotel clerk sternly re-used to accommodate the party.

How very different from the title bouts of today, that draw thoursands of fans, are broadcast and televised all over the con-tinent, with champions richly awarded! The sheer brutality of boxing in the old days, too, has been lessened by a limit placed on the number of rounds.

The Point Anne Trent Valley entry with defeat staring them in the face going into the third period, hitched up their bockey britches, muttered a synare or two, then proceeded to come up with a semational third-session splurge#that netted them xix goals and a 9-7 victory.

The Ox Pointers were down 7-3 going into the final heat, and mattern did not look so good. It is not known what Earle Anderson said to his charges, but apparently it worked for they went out there and tied the Campbellford cith in knots while raining in a deluxe of goals. Let's Talk Advertising In Terms of Your Business. Just PHONE 4600!

What's the point of advertising? It's as simple as this. If you have something to sell, the more people who know about it, the more you will sell. Your ad in this paper affords the quickest way, for the least money, to get your selling story before the most people. If it pays to sell, it pays to advertise . . . because advertising IS selling, geared for largescale, profitable results!

It is a trite question and one that borders on the edge of being a cliche, nevertheless, somebody fired it at Irvin "flow does Richard stack up sgainst Gordie Howe as a right-wings?"

The Habitants coach did as neat a bit of evasive action would wish to see or hear.

"There is a distinct difference between Hewe and Richard," he mid. "Cordie is a mechanical player who score reals aimset considentity. He leaks the color of a Richard, who goes on periodic grai-retting splayers. Then, loo, Hewe plays more hockey than Richard. After all he is a much younger mass than the," Sock," who is 32, and we do not intend burning him out."

"The 'Rock' is still the idel of Montreal fans and will be for a long while. A lot of boys thought Jean Mare Be-liveau would steat the 'Rock's' thunder,' but he has only in-spired him to greater effort. Richard is still the greatest backey player in the world," Irvin sald.

Referring to "Le Gros Bill", the silver-thatched coach saids pride of Victoriaville, the Quebec League, and all points at got away to a bad start after tremendous publicity. "Re oke a jaw, then an ankle. It is hard on a player to break to the National Mockey League under these circumstances."

What did he think of Al Rollins, Chicago goalie? "He one of the best all right," conceded Irvin. "But he is get-ug lots of work and that makes any goalie look good."

Irvin reviewed his own hockey career since he started to y out west in 1908. He has never played on a Stanley p team, but performed once on a squad that won the lan Cup. He has won the Stanley Cup pewterware four

He was in favor of a professional league in the west, he said "It would be a great thing for hockey and would give it a Grey Cup calibre."

Present-day hockey is no rougher than that of the old days, he mid, "but it is definitely tougher. The boys hit harder, board oftener and throw many more body checks than they did in the old days. The bockey life expectancy of the present day professional player is 10 years."

Speaking of the oldliners, trim said the came giaged in Montreal recently by teams of oldliners attracted 19,000 people and was a great show. Their you are having one bers. The people of Belleville abuild not miss in. The old follows really got on an exhibition, one that will keep the fam on edge all night.

Irvin paid sincere tribute to his old friend, Bill Moore, for-zly, with Deacon Bros. Ltd. here. "Bill and I were great ends for many years," he said. "He was a fine man and all boys on the Canadiens team thought highly of him."
